**Subject:** Follow-up to 20 Yr plan meeting

Dave/Mark,

I wanted to reach out to you and see if you had time next week, prior to Thursday, to meet for about an hour to walk through some of the assumptions / inclusions/ exclusions associated with the most recent forecast, and perhaps discuss any historic information you may have related to the 2010 or 2012 numbers.

There are no overlapping open times on your schedules, though there are some large chunks of 'private appointments'. Would a Monday or Tuesday of next week work for an hour discussion. I am flexible on location of the meeting....

Let me know a couple options and I can see if we can get something on the books.

Thanks

Ken VanOverberghe

**Received:** Mon 1/19/2015 1:44:51 PM

Mark,

Sorry, I was out Friday - today will work - my schedule is open so anything that works with your schedule is OK on this end....

**Subject:** RE: 20 Year Plan - Assumptions etc.

Would you have some time this afternoon to answer a few questions I have. They are mainly around the metering assumptions.

This can be done simply by a call.

Ken,

I can meet you on 16. I may be a few minutes late since I have a meeting until 2:30pm.  
Where should I meet you?
